FRIPRO

Changes in FRIPRO

Timeline for application work at IFIKK autumn 2023

15.09.23

UNIVERSITY
OF OSLO

What is FRIPRO?

- Ground-breaking research
- The FRIPRO scheme shall promote
 - scientific quality at the forefront of international research
 - bold and innovative research
 - career and international mobility for researchers early in their research careers
- No thematic priorities

FRIPRO calls: some changes

Three-year Researcher Project with International Mobility

- 0-7 years since PhD defence
- Duration: 3 years
- 4,4-4,8 mnok

Researcher Project for Early Career Scientists

- 2-7 years since PhD defence
- Duration: 3-4 years
- 4-8 mnok

Researcher Project for Experienced Researchers

- >6 years since PhD defence
- Duration: 3-8 years
- 4-12 mnok

Changes to FRIPRO

- Open-ended deadline
 - Continuous application processing, no «cut-offs»
 - Available funds will be spread out throughout the year and waiting lists are introduced
 - The project must start between 8 and 18 months after submission of the application
- Introducing a waiting period (karenstid) – 1 year
- Introducing a submission restriction period/quarantine (karantene) – 1-2 years

New: waiting periods and quarantine

Three-year Researcher Project with international mobility

- 0-7 years since PhD defence
- Duration: 3 years
- 4,4-4,8 mnok

1 year waiting period

No quarantine

Researcher Project for Early Career Scientists

- 2-7 years since PhD defence
- Duration: 3-4 years
- 4-8 mnok

1 year waiting period

1 year quarantine for avg. marks 1-4,5

Researcher Project for Experienced Researchers

- >6 years since PhD defence
- Duration: 3-8 years
- 4-12 mnok

1 year waiting period

1 year quarantine for avg. marks 3,25-5,5

2 years quarantine for avg. marks 1-3

Changes to FRIPRO

Eligibility project manager

- You cannot be in a waiting period or quarantine for FRIPRO
- You can only lead one FRIPRO project at a time, but you may apply before your current project is done

How is an application processed?

Continuous processing through the year, no cut-offs

- Submission
- Pre-assessment
 - Checking formal requirements
 - 1 month window for withdrawing an application w/o triggering waiting period
- Peer-review
 - Panels with >3 reviewers
 - Panels can vary greatly in size
 - Reviewer pool

How is an application processed?

Continued

- **Peer-review** (continued)
 - Four assessment criteria – four marks from 1-7
 - Excellence – quality of R&D activities
 - Excellence – potential for advancing the state-of-the-art
 - Impact
 - Implementation
- **Decisions on allocations – by the portfolio board**
 - Approximately every two months, the administration will submit lists of applications for decision to the portfolio board for Ground-Breaking Research. The lists are based on rules drawn up by the portfolio board and follow the objectives of the FRIPRO scheme and the priorities set out in the calls.
 - Three scenarios: Allocation, rejection or waiting list

How is an application processed?

Estimated timeline at the RCN

2023, 18 October: calls open for submission

2024, June: First announcement of results

- Announcement approx every 2 months, allocating a set amount of yearly budget
- Processing time will vary greatly, starting at an est. average of 7-8 months

Timeline internal process IFIKK

- **29 September:** Deadline for reporting intention to apply and application title/topic to Zhanna S. Skrede and Ingunn Aronsen.
- **Through October:** Project and budget development meetings with Zhanna and Ingunn
- **10. November:** Internal application submission.
- **Through until 24. November:** Feedback on drafts.
- **1 December:** Final RCN submission.

Important to remember

 **Always read the call text thoroughly when you're considering applying**

Pay special attention to:

- Eligibility
- Requirements and documentation
- What you can get funding for

Re-read just before submitting, as there may be changes to the call text
