You must use a reference style (such as Harvard, MLA, Chicago or APA) throughout your exam submission, and in the bibliography/reference list at the end of the submission. Therefore, you must also read the University's guidelines:

**Please answer one (1) of the following two (2) questions:**

1. Explain what is meant by the concepts 'intensified continuity' and 'post-continuity'. How would you relate these concepts to continuity as we know it from classical Hollywood cinema?"

Include examples of movies that can be approached in light of these concepts. Discuss how and to which extent these films make use of principles of continuity.

2. Take as your starting point the following concepts: 'counter-cinema', 'third cinema', 'minor cinema'. Explain how these three concepts present criteria for how a film should depart from 'mainstream film'. Discuss what these concepts have in common and what sets them apart.

Present an analysis of a film of your own choice, where you make use of one or several of these concepts. Include both factors related to the film's style and factors related to the film's content.
