EXPECTATIONS

You are expected to use the course syllabus to get an overview over the topic. The purpose of the qualification assignment is to assess whether you have read and understood the literature presented in the first part of the course, and can use it independently.

Refer to at least 4 different sources (books and articles).

Important evaluation criteria are whether the review is well organized, the assignment refers to relevant arguments in a systematic way and all the formalities are in place (correct citations, length, number of sources etc.). The assignment must be written in English.

MORE INFORMATION, SUPERVISION

We will discuss the qualification assignment in lectures and seminars, starting in the introductory lecture 29.8.

There will also be an opportunity for individual supervision to discuss your submission on 21.9.2018. In the meeting with the supervisor, you are expected to say a few words about the work you have done so far (1-2 minutes) before you are given feedback and we discuss the questions you may have.
