

MEVIT4800 – SPSS Lab Seminars

The groups for the SPSS Lab Seminars have now been set up (see below in this document). Each group participates on one day in week 45 and one day in week 46.

If you are completely unable to attend on the days you've been assigned to, send an e-mail to marika.luders@media.uio.no and explain the reason for *needing* to change groups.

Mandatory assignment

We will work with the mandatory MEVIT4800-assignment in the SPSS seminars.

The assignment consists of a set of tasks that shall be completed using a dataset that will be made available to you via Fronter on the first day you attend the seminar. The dataset is a survey of US citizens experience with fake news.

Submit your assignment via Fronter, where there will be made a submission-folder. The **deadline for handing in the assignment is midnight Friday 17th of November**. Any questions regarding the assignment should be made to marika.luders@media.uio.no.

For those of you that are unable, or for some other reason will not participate in the Lab groups, you will have to complete the assignment without any assistance or supervision from the teaching staff. If you cannot/will not attend the Lab Seminars, SPSS can be accessed and used via UiO's Program Kiosk: <http://www.uio.no/english/services/it/network/home-and-away/kiosk/>

Failure to complete the assignment by the deadline will mean that you will not be allowed to participate in the exam for the course.

Monday 6th and Monday 13th of November

10.15 – 15.00 both days

Place: Room 202

Alhashmi, Ahmad
Dangol, Bimala
Gripsrud, Elisabeth Kjeldsberg
Han, Luyao
Kvam, Sara
Larsen, Elisabeth Ramsberg
Lydersen, Asta Busingye
Marrable, Halvard
