4. Rules about cheating and plagiarism

When you take facts, thoughts, ideas, viewpoints and short or long quotations from others and use them in your own work, the sources you have used must be clearly stated. In other words you must not give the impression that others' thoughts, ideas, viewpoints and results are your own if they are not.

For example, using word-for-word or even paraphrasing the language of a UN Report without attributing the source of that language is plagiarism. Using another's idea without attributing the idea to the person who conceived it is also plagiarism.

Avoid quoting long excerpts and articles; short citations are preferred, and instead provide an evaluation of the literature that is necessary to defend your points of view.

Be sure that you are familiar with the use of sources and the rules for citing/quoting from others' work when writing assignments and theses. http://www.uio.no/english/studies/admin/examinations/cheating

UiO uses a plagiarism checking tool as one of several instruments for detecting suspicion of cheating and attempted cheating.
