

HUMR 5702 Take Home Exam, assignment 2.

Clarification regarding the Exam Question.

1. Concerning the case, you should chose a real case (from the literature), or a made-up case, and apply human rights thinking/principles and or an analytical framework (programming is one typical) in analysing the case. Specify the problem, including the human rights issue/s. You should apply human rights thinking/approach/standards etc. on a practical case. You should link this case to one of the SDGs and discuss related indicators for e.g. monitoring
2. The sentence “10 less than the maximum word limit” should read: “10 % less than the maximum word limit”.
3. The summary of the paper could be read as “conclusion”, and should summarise the main discussion of the paper. The summary/conclusion should come at the end.
