

Final home exam, autumn 2017

KRIM2957 Surveillance: Data, technologies, practices

Date of exam: 1 November at 13:00 to 6 November at 13:00

Discuss **one** of the following questions:

How did the move from analog to digital information influence profiling techniques, particularly criminal profiling?

or

How is Foucault's concept of panoptic surveillance challenged by the rise of digital information technologies?

The question can be answered in English, Norwegian, Danish or Swedish.

Size: Maximum 2400 words (roughly 6pages). Front page, contents page (optional) and bibliography are not included. If footnotes are used in the text (at the bottom of each page), they are included in the 2400 word limit. **Papers that exceed the 2400 word limit will be disallowed.**

Cheating: Any exam at the University of Oslo is being checked for both correct word count and incidents of cheating. Text recognition software will be used to find cases of plagiarism. Failure to cite sources or highlight quotes in any assignments that are handed in is considered cheating. You must cite the source if you obtain data, reasoning and arguments from the literature, syllabus, lecture notes, web pages, other students' papers or your own previously submitted papers. Short or long pieces of text quoted verbatim from other sources must be italicised so that it is obvious that it is a quote.

Submit your exam: The essays shall be handed in electronically in Inpera. Exams at the University of Oslo are anonymous. Instead of your name, write your four-digit candidate number found in StudentWeb.
