

Final home exam, autumn 2018

KRIM4957 Surveillance: Data, technologies, practices

Date of exam: 28 November at 13:00 to 5 December at 13:00

Discuss **one** of the following questions:

How does the surveillance of data relate to processes of social sorting? Give examples from different thematic fields in surveillance studies and relevant literature. Discuss some prominent effects and implications of social sorting.

or

What are strategies and principles to question, control or limit dataveillance? Give examples from different thematic fields in surveillance studies and relevant literature.

The question can be answered in English, Norwegian, Danish or Swedish.

Size: Maximum 4000 words (roughly 10 pages). Front page, contents page (optional) and bibliography are not included. If footnotes are used in the text (at the bottom of each page), they are included in the 4000 word limit. **Papers that exceed the 4000 word limit will be disallowed.**

Cheating: Any exam at the University of Oslo is being checked for both correct word count and incidents of cheating. Text recognition software will be used to find cases of plagiarism. Failure to cite sources or highlight quotes in any assignments that are handed in is considered cheating. You must cite the source if you obtain data, reasoning and arguments from the literature, syllabus, lecture notes, web pages, other students' papers or your own previously submitted papers. Short or long pieces of text quoted verbatim from other sources must be italicised so that it is obvious that it is a quote.

Submit your exam: The essays shall be handed in electronically in Inpera. Exams at the University of Oslo are anonymous. Instead of your name, write your four-digit candidate number found in StudentWeb.
