Out of the 60 points that were in principle available in the exam, 15 were regarded as ‘bonus points’ (i.e. the actual reference scale is 45 points). Up to 5 further points could be obtained by solving the exercises during the semester – which makes for a ‘maximal’ number of 50 points. *Special congratulations to the person that managed to reach more than that!* The grade is determined according to the following table:

- $P \geq 40$: A
- $P \geq 33$: B
- $P \geq 26$: C
- $P \geq 20$: D
- $P \geq 15$: E (required for pass)
