$\frac{\textbf{FYS4160} - \text{`underveisevaluering'} \; (Spring \; 2022)}{[\textit{Note that there is plenty more space on the back!}\; ;)]}$

•	How much time, per week, do you spend in total on FYS4160? How much on only preparing the exercises?
•	Do the lectures motivate you to give your best in this course? Why $/$ why not? (how can they be improved?)
•	Do you find the exercise classes useful? Why / why not?
•	What would motivate you to use the $PIAZZA$ forum more actively?
•	So far: are you happy with the course? Why $/$ why not? (anything that should be different in the 2nd part?)
