Week 2: Agile 1

1. What is software engineering?

2. What relationships do you imagine that you could have with software engineering and software development teams in the future?

Week 2: Agile 2

1. What is the difference between plan-driven (waterfall) and agile software development?

2. What can be benefits of agile software development compared to plan-driven software development?

Week 2: Agile 3

1. Is there no "planning" in agile (since it is contrasted to plan-driven)?

2. What are challenges with agile?
