

## **Internet and WWW**

### **Exercises for workshop/seminar 27. September**

#### **Task 1**

Go to <https://www.w3schools.com/html/default.asp> for learning (simple) HTML programming. Use the “Try it yourself” buttons to test the features.

1. Read the following tutorial parts:
  - HTML Introduction
  - HTML Basic
  - HTML Elements
  - HTML Attributes
  - HTML Links
  - HTML Images
2. Create a simple Web page with a link and an image.
3. Test further features like lists or tables.

#### **Task 2**

Go to <https://www.w3schools.com/js/default.asp> for learning (simple) JavaScript programming. Use the “Try it yourself” buttons to test the features.

1. Read the following tutorial parts:
  - JS Introduction
2. Create a Web page with 2 buttons that can show and hide respectively a part of the page (e.g., a text or an image)
