

# Weekly assignments part 1

# Week 1 - first set

1. What is an IT project?
2. What is digitalization? Are digitalization projects different from IT projects, if so, how?

# Week 1 - second set

1. What are important roles within an organizational IT project and what role(s) can you imagine yourself being in after your master's?

# Week 1 - third set

1. Why are IT projects so challenging?
2. From your learnings so far, are there some considerations organizations should make when planning for an IT project?

# Week 1 - fourth set

1. What has been interesting so far?
2. What is unclear?
3. Any hopes for things to cover?
4. Any questions?
5. Anything we can improve in regards to the lectures and seminars?
