[More](#)

- Click «New topic» to add a new post, a topic always have to be attached to a category.
- You can also navigate the categories from the drop down menu

Writing math and code in a topic

The screenshot shows a forum editor interface. At the top, there is a header with a '+ Create a new Topic' button and a search bar containing 'Test LaTeX/kode'. Below the search bar, there are two tabs: 'BIO1000 (And...)' and 'Test forum...'. The main editing area contains a rich text editor with various icons (bold, italic, link, quote, code, image, list, table, smiley, calendar, settings). The editor content is as follows:

```
**LaTeX**  
$\int_0^1 \frac{dx}{e^x} = \frac{e-1}{e}$  
  
**Kodeformatering:**  
...  
function myFunction(p1, p2) {  
  return p1 * p2; // The function returns the product of p1 and p2  
}  
...
```

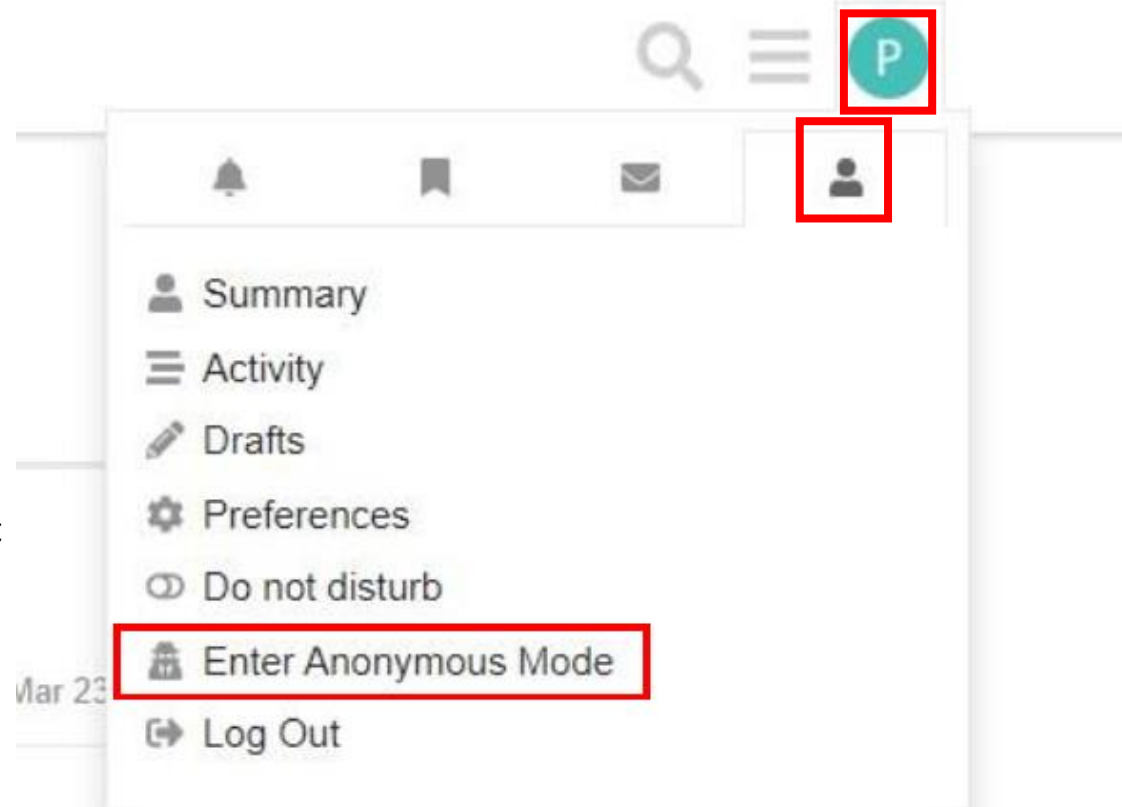

On the right side of the editor, there is a preview area. It shows the rendered LaTeX equation: $\int_0^1 \frac{dx}{e^x} = \frac{e-1}{e}$. Below that, it shows the rendered code block with syntax highlighting: `function myFunction(p1, p2) {
 return p1 * p2; // The function returns the product of p1 and p2
}`. Two red arrows point from the source code in the editor to the rendered preview on the right.

At the bottom left, there is a '+ Create Topic' button and a 'cancel' button. At the bottom right, there is a double left arrow button.

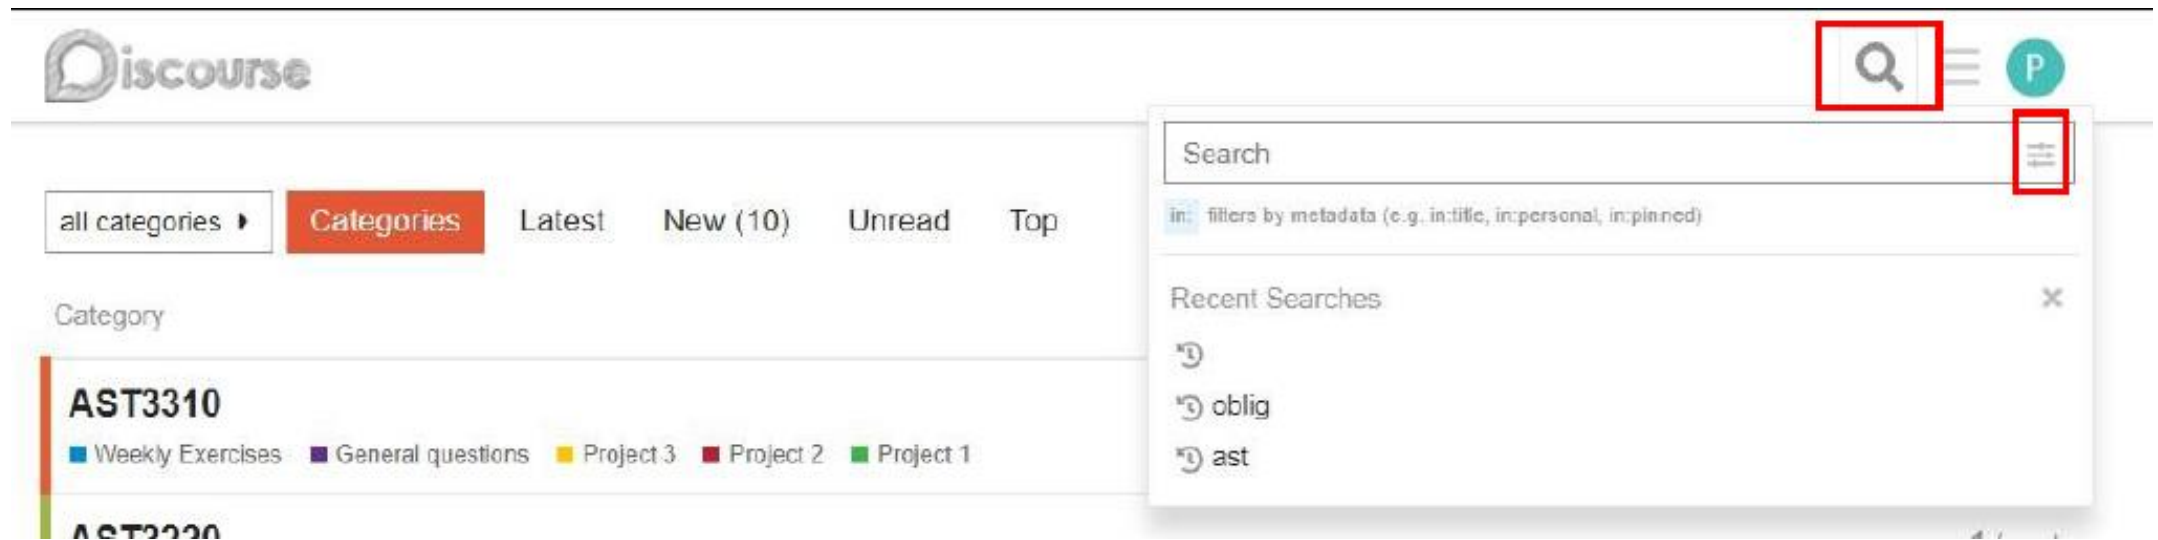

- To write LaTeX you need to use dollarsigns at the start and the end of the paragraph.
- To write code inline, use one single apostrophe (in reverse) ` , like this: `a = cos(f)`
- Using three of them before and after the code on separate lines allows you to write longer codes
- Both math and code renders real time.

Posting anonymously

In the top right corner click the user icon, preferences and then click enter anonymous mode to post anonymously. Do the same to revert back to user posting

Searching

The screenshot shows the Discourse search interface. The search bar is highlighted with a red box, and the search results dropdown is also highlighted with a red box. The dropdown shows a search input field, a filter section, and a list of recent searches.

- Click the magnifying glass to search in all the content on the site.
- You can also make advanced searches.
- By searching «status unsolved in category name», you can see all unsolved topics in that category.

Setting up notifications

The screenshot shows the Discourse user profile page for user 'paaled'. The 'Emails' menu item in the left sidebar is highlighted with a red box. The 'Email' settings section contains three dropdown menus: 'always', 'only when away', and 'never'. Two red arrows point from the 'always' and 'only when away' dropdowns to a text box on the right. The 'Preferences' menu item in the top right user menu is also highlighted with a red box.

Email

Email me when I am sent a personal message

always ▾

Email me when I am quoted, replied to, my @username is mentioned, or when there is new activity in my watched categories, tags or topics

only when away ▾

We'll only email you if we haven't seen you in the last 10 minutes

Include previous replies at the bottom of emails

never ▾

Include an excerpt of replied to post in emails

Activity Summary

The two upper ones should be set to 'always' if you want to receive emails immediately for new posts.
