

Topics for group discussion on February 1st

Who are you interviewing for Assignment 1? Why did you choose this person?

What is (or was) your strategy when planning the interview? What questions will you (or did you) ask? How will you (or did you) take notes?

What sort of challenges have you encountered when planning (and carrying out) the interview? How have you overcome these challenges?

What types of research questions did Guri talk about in the last lecture and how can you use these terms for your research?

What is qualitative data?

What kind of data / empirical material do we gather using qualitative methods?

How did Guri describe the differences between qualitative and quantitative research methods? Does this match your understanding?
