

# Curriculum etc. for INF4130, fall 2016

---

The curriculum for fall 2016 can be found at the address:

<http://www.uio.no/studier/emner/matnat/ifi/INF4130/h16/pensumliste/curriculum-inf4130-2016.pdf>

An errata list for the textbook can be found at

<http://www.uio.no/studier/emner/matnat/ifi/INF4130/h15/pensumliste/errata-2008.pdf>

The main textbook for the course is (like last year) Berman & Paul: "Algorithms: Sequential, Parallel and Distributed".

The textbook for the is difficult to get hold of, and therefore a few chapters for the first part of the course can be found here (chapters: 9, 14, 20 and 23):

<https://www.uio.no/studier/emner/matnat/ifi/INF4130/h16/undervisningsmateriale/first-used-chapters.pdf>

The rest of the chapters we need from the textbook for INF4130 appear here (chapters: 6, 8, 10, 26, plus the list of contents for the whole book). Chapter 26 is not really needed, but represent possible complementary reading about NP-completeness.
