Olaf Owe

INF 4140: Models of Concurrency

Handout 1

Handout 1: General info

Issued: 29. 08. 2016

The lecturers of this course are

lecturer	office	phone	email
Olaf Owe	8463,	22 85 24 49	olaf@ifi.uio.no
(Martin Steffen	8162	22 85 0417	msteffen@ifi.uio.no)

The *webpage* of the course is found under

http://www.uio.no/studier/emner/matnat/ifi/INF4140/h16

It contains information about the course, slides will be available, exercises, announcements, info about obligs, etc. A proposed weekly schedule is already there, but it may undergo adaptations as we go. If slides for forthcoming lectures have not yet been uploaded, you may find corresponding slides under the corresponding link for earlier versions of this course, as there will be a large overlap (but also adaptations).

The main source of material is the textbook *"Foundations of Multithreaded, Parallel, and Distributed Programming"* [?]. Consult the homepage for further information about the *syllabus*.

As for the exams: there will be **3 "oblig's"**, i.e., mandatory assignments which must be approved. Info about the final exam will be provided later.

The mandatory assignments are to be handed in (before the respective deadline) via the

Devilry system (https://devilry.ifi.uio.no/)
