

Great Student Questions

and some not so great answers

Topics for the Interview

- Must be tailored by you
- Only you know your case
- Use what you have learned so far
- Read
- Ask us
- Discuss within the team

Topics - Green is covered to date

Process
Strategies

Architecture

Governance

Assemblage Theory

Actor Network
Theory

Reflexive
Modernisation

Complexity
Science

Topics

Remember *Information Infrastructure*

- Use the slide from the first group lecture.

How am I to know this?

How to handle complexity?

- By recognizing complexity by using Complexity Theory.
- By analyzing and using ANT
- By viewing as an II
- Be aware of Reflexive Modernization effects
- And much more to come ...

Tips

- Use a referencing tool
Ex: Zotero / Mendeley etc.
- Select a referencing style and stick with it
- Delegate topics or work
- UIO VPN service
- Use Google Drive for collaboration, Word for preparing deliveries
