

## **Sum-up and preparing for the exam.**

Work in groups (ca. 55 min.) with the following issues we have been learning about during the fall – remember to take notes, we'll spend about an hour discussing them in class.

### **Groups:**

- 1: Øyvind, Anne Merete, Ida
- 2: Omar, Stefanie, Guri, Maria
- 3: Ole Kristian, Helene, Ingeborg
- 4: Farah, Trine, Thomas, Vegard
- 5: Hogne, Veronika, Guro, Christina
- 6: Kristin, Dong, Thibaut
- 7: Silje, Aslak, Kjell
- 8: Marit, Marie, Miguel

1) What is qualitative research (compared to quantitative)?

2) Explain what is meant by the research paradigms:

- a) Positivist
- b) Interpretive
- c) Critical

- what has the emphasis been on in this course?

3) We have encountered the following methodologies – what is meant by:

- a) Ethnography
- b) Action research
- c) Case study
- d) Grounded theory

Are there correlations between the methodologies? In what way do they differ?

4) We have learned about different qualitative methods during this course.

- a) Which ones?
- b) What you have to make explicit when using the methods?

5) When you generate empirical material you also have to analyze it.

- a) What is an analysis?
- b) How would you organize and analyze your material?

6) Describe another topic you have learned about in INF5220, which is not covered above.
