

Overview of branches in the DHIS 2 repository

All groups working directly with the DHIS 2 source code have been given a branch in the DHIS 2 repository. Please commit often as it improves collaboration within your project and makes it easier for you project supervisor to give you feedback. Check out the source code from the following location:

8. Implement check-it functionality in DHIS 2

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/check-it

12. Improve mark-up in DHIS 2 user interface

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/mark-up

14. Customised data entry using FCK Rich Text Editor

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/customised-data-entry

15. Extended organisation unit / data element management

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/data-admin

16. Data Integrity Checking

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/data-integrity-checking

17. DataElementCategory / Multi-dimensional model

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/dataelement-category

18. Target / benchmark module

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/target-benchmark

19. Explore and prototype a more interactive / accessible help system inside modules

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/help-system

20. Various smaller DHIS 2 tasks

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/various-tasks

21. Moving and deleting data entry forms in data entry

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/data-entry-forms

22. Data value management (merging based on organisation units and data elements)

svn+ssh://<username>@login.hisp.info/home/projects/dhis/scm/branches/datavalue-management
