

INF5830, 2017, 30 Oct, Lab 8: Statistics and chunking

Two activities:

1. Review of obligatory assignment 2, in particular the statistical parts, exercise 2 and exercise 5. There is a model solution at the IFI servers in the /projects/nlp/ directory.

Also reviewing some parts of obligatory assignment 1, which are relevant to this: ex 2c and 2d, and apply statistics to the results of exercise 3.

2. Practical consecutive sequence labelling with BiO tags. We will start with NLTK, chapter 7, section 3.

THE END
