

INF 5860- Exercises in visualization

The page <https://github.com/Hvass-Labs/TensorFlow-Tutorials> provides a good selection of tutorials on tensorflow with a combination of videos and notebooks.

This week we will work with tutorials 13, 13b and 14. You should also watch the youtube-videos.

Study the tutorial notebooks, play with the settings, and watch the videos. Do the exercises given at the end of the tutorial notebooks.
