

The image shows a vertical strip of paper with handwritten mathematical work. At the top, there are several lines of algebraic manipulation involving variables like x , y , and z . A notable equation is $x^2 + y^2 + z^2 = 1$. Below this, there are more equations, some with subscripts, such as $x_1^2 + x_2^2 + x_3^2 = 1$. A starburst diagram is drawn in the middle. Below the diagram, there are more equations, including $x^2 + y^2 + z^2 = 1$ and $x^2 + y^2 + z^2 = 1$. The bottom part of the strip contains several lines of text and equations, some of which are partially obscured or cut off.
