

## STK4520: Information about the exam

- The exam consists of:
  1. a short home exam, based on the same topic as the obligatory assignment
  2. an oral exam, where you
    - give a **20 minute** presentation of your home exam
    - you will be asked questions about both the topic of the home exam other parts of the curriculum.
- The topics of the home exams will be given on **Tuesday May 31 at 12:00**.
- The list of names and matching home exam numbers is to be found under the link "**List of home exams and names**".
- The presentations, if you use powerpoint, are to be sent to **ingrihaf@math.uio.no** within **Friday June 3 08:00**.
- The oral exam will take place on **Friday June 3 in room 801 (B81) in NHA**.
- The time schedule for the oral exam is given under the link "**Time slots for the oral exam**". We have a very tight schedule, so please show up in good time.
- Each of you will be given a separate topic for the home exam.
- You should not cooperate one the home exam.
- I can answer questions about potential unclarities in the home exam topic.
- You choose the mode of presentation yourselves, but due to the strict time schedule, I *strongly* recommend using powerpoint.
