

Information - clinical teaching module 6

Clinical small group teachings that will differ from the time schedule:

- Labour ward (labour week) – Students will receive information by email some time prior to their labour week with rotation which will not correspond with the time schedule.
- Gynaecology outpatient clinic infertility Rikshospitalet. – Click on links to the in your time schedule for more information. <https://tinyurl.com/MED5600REI>
- Antanatal outpatient clinic Ahus (svangerskapspoliklinikken) – time might differ from the scheduled timeslot, you will receive information by mail from your teacher with rotation.
- Gyn outpatient clinic Ahus:
The groups will receive an email at the beginning of the semester with a suggestion of rotation to 3 outpatient clinics.
- Gyn outpatient clinic Ullevål might deviate from Mine studier within the same week . The coordinator Winta Embaye (920 52 128) will send an updated SMS the week before the clinic with time slots. We lack rooms and patients and therefor have to adjust individually within the set week. Meeting time is 08.15 Mo-Wed and 08.45 Thu and Fri.
- Voksentoppen. The clinical small groups will be merged into bigger groups (not ready by semesterstart).

Activities you need to sign up for:

- Paediatric journals: In calendar
- Voluntary presence at Voksentoppen. Sign up in calendar (not ready by semester start)

Presentations:

- Group presentation in Global Health. You will be given information during introduction to Global Health 31.1- Mandatory activity.
- Case meeting
