

Exam ECON1910, Spring 2021.

- A) Give a critical assessment of how poverty can be measured in a developing country.
- B) Explain how access to free trade for a developing country can cause both a reduction and an increase in poverty.
- C) Discuss what one can do in order for everybody in a developing country to gain from free trade and globalization.

(The answer to each question counts 1/3 in the grade.)
