

Problem Set 11 (An extended problem set, I may add a few more problems before my last lecture)

Sun Gang will discuss some of these problems on Monday Nov 12, 2007. I will go through the remaining others during my final lecture.

Rice 3rd ed.

Chapter 4: Problems (Section 4.7) – 79, 90.

Chapter 5: Problems (Section 5.4) – 14 (recall exercise 13 from our previous practice problem set).

Chapter 8: Problems (Section 8.10) – 6, 18, 50, 71, 73. (I don't know how difficult problem 18 is, I haven't tried it myself. Try it out yourself, if it turns out to be too difficult, I would go through it during my last lecture)

Chapter 9: Problems (Section 9.11) – 5,6 (I may add a few more, depending on how much I can cover during this week's lecture).
