

Installation of OxMetrics on your own computer

To install OxMetrics/PcGive, do as follows:

1. Follow the link on the course web page and log into Fronter using your UiO user name and password. When in Fronter, download the zip file *oxmetrics62_student.zip* to a USB “pin”. Remember, you need to be logged on to a UiO machine. The license is for registered UiO students only
2. Copy the zip file from the USB pin to your laptop
3. Unzip, i.e. extract the files
4. Run (Double click) the file called *install.bat* and the program will start the installation process
