

# TSD roadmap

2021-03-17

# Agenda

- Overview of TSD services
- Bird's eye view of plans
- Questions

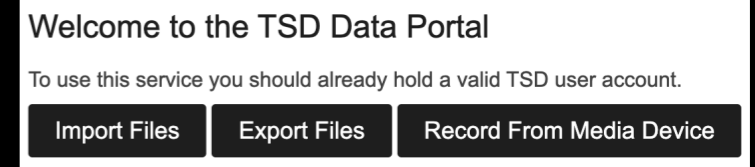

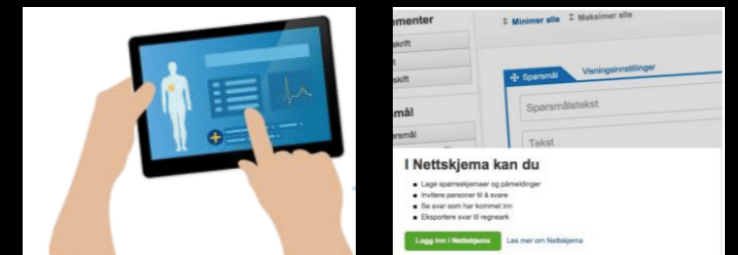

# Services

## Self service

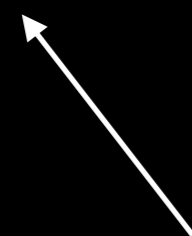

## Data collection App development

Login  
Analysis  
Compute  
Software  
Storage  
Backup  
Databases

## Publication Sharing

## TSD Publication Portal

Download Files

# Self service

- User creation for principal investigators
- Foreign user creation
- Audit logs
- More options for import links
- Maybe: export links
- Windows software
- Institutional moderators: overview of all projects for a given institution, e.g. HSØ, OsloMet

# Data collection

- New Nettskjema integration
  - Self service dataset creation
  - Granular access
  - Automatic publication, in real time
- Screen capture

# Login

- Redhat 8 on Horizon
- Windows 2019

# Compute

- New setup for rootless Docker

# Storage

- Transition from HNAS storage to IBM storage - before summer 2021
- Unified storage: less copying inside TSD when using HPC

# Publication and sharing

- More flexibility and logging for publishing data
  - Share Nettskjema responses with respondents
  - And with anyone else
- Get insight into who shared it, and who accessed it, when
